## MEDICAL REPORT

Our patient Muna Abdirazak( 3446), reviewed our clinic for assessment of rough filling done yesterDAY AT ANOTHER CLINIC.

- Examination** : On examination there was composite filling done on 7,8,9 and 10. The composite fillings were not polished and the patient was having trouble flossing and discomfort while placing her tongue on the palatal and labial surfaces.
- Impression** : Fractured filling irt distal surface of 9 and mesial surface of 10 with no separation between the two fillings.
- Recommendation** : Re restoration of composite fillings on the distal surface of 9 and mesial surface of 10. Treatment done Removal of fractured filling irt 9 and 10 Re restoration of the distal surface of 9 and mesial surface of 10. Composite polished and high points checked.

This report has been dictated at the request of the patient. I hope that it satisfied your records. Please do not hesitate to contact us if we can be of any further assistance in any particular way.
