Consent for Ref.

Respected sir/madam,

pt named Mahesh Vishnu Goblawi visited our clinic with pain in lower right side since 5 days, pain is severe and throbbing in nature and giving him trouble while sleeping

IOPA reveals he has peri-apical abscess in lower right first molar for which we need to do Root canal treatment in order to save the tooth.

pt is a known case of coronary artery disease for which is taking medicine [Aspirin] As per pt's verbal history.

Also pt is a known case of diabetes along with hypertension for which he is taking medicine

The current result of HbA1c is 4.5.

I would request you to review him and give your expert opinion and clearance before going ahead with the procedure
