

Patient File No : 3492

Patient Name : Amrit Singh Shinh

Nationality : British

Emirates ID : 784-1993-2752455-1

DOB : 11-Mar-19

Gender : Male
Date : 13-May-2024

## Teeth Cleaning

Teeth's cleaning is a process in which plaque (a thin soft white layer covering the teeth) or calculus (the hardened or calcillied plaque) is removed using the latest dental uitrasonic machine at high speed with water spray as a coolant. Plaque usually needs one session of cleaning after which airflow technique and professional polishing is performed. As for calculus it may require 1 to 2 sessions depending on its extent. If its superficial then one ession is required after which polishing is done to smooth the teeth. If the calculus is deep then that requires 2 or more session is required after which polishing is done to smooth the teeth. If the calculus is deep then that requires 2 or more session is deep scaling in which the roots are also cleaned, smoothed and polished. If any further treatment is unexpectedly added to the treatment plan for any reason, it would be subject to additional cost which the patient has to pay, and would require extra treatment time and extra sessions. After scaling the patient has to pay, and would require extra treatment time and extra sessions after scaling on extend of the calculus. Some mobility may be experienced in cases of deep scaling the severity of which depends on extend of bone loss and may require further treatment. Some patients may notice some spaces between their teeth those are due to the removal of the calculus that was occupying that space.

In case the patient insisted on modifying the treatment plan against the doctor's recommendations then he/she or his/her representative or the person responsible for him/her has to sign a pledge that exempts Dentistree Dental Clinic, and its Dentists, in full from of any liability whatsoever, whether financial, medical, legal or moral.

The patient's absence on the dates and timings set for him/her or lack of commitment to the doctor's instructions could lead to compilications that would change the treatment plan, or lead to its failure, and in such case, he/she alone would be responsible to pay the cost of the original treatment plan already agreed upon in addition to the additional cost resulting from modifying the treatment plan. The patient in this case is responsible about the results whatsoever and should fully exempt Dentistree Dental Clinic and its doctors from any liability whether financial, medical legal or moral.

The cost of all stages of treatment must be paid in full in advance and is non-refundable at any stage of the treatment, even if the patient did not complete the treatment for any reason whatsoever.

Signing this paper by the patient or any who is responsible for him/her or represents him/her means that:

He/she has read the paper and understood its contents, and has questioned in a full and satisfactory manner about everything related to the treatment from the doctors of the clinic and any other party, they want to consult, and that the patient has approved what was explained to them and requested the physicians of Dentistree Dental Clinic to begin the treatment and gave them the authority to do whatever they consider is appropriate for his/her case, and pledged to follow their instructions, attend all the treatment sessions on time and pay the treatment cost in full.He/she has read the paper and understood its contents, and has questioned in a full and satisfactory manner about everything related to the treatment from the doctors of the clinic and any other party they want to consult, and that the patient has approved what was explained to them and requested the physicians of Dentistree Dental Clinic begin the treatment and gave them the authority to do whatever they consider is appropriate for his/her case, and pledged to follow their instructions, attend all the treatment sessions on time and pay the treatment of full.

I have read all what is mentioned above and I will sign below in agreement on it.

تتظيف الأسنان

عملية تنظيف الأسنان هي عبارة عن تنظيف البرلات (هي طبقة بيشاء ناعمة تعطي السر)
أو العبر (وهو البرلات المتصلب) وياسطة أحدث أجهوا التنظيف الفوق صوفية التي
المتقدم الماء للتوريد البرلات يستخدم خصيصاً، أما التنظيف الجور فيلطلب من بعدها بهم المعيم
السن بواسطة معجون يستخدم خصيصاً، أما لتنظيف الجور فيلطلب من جلسة ال
