

To Whom It May Concern:

This is to certify that Patient Cartojos visited Dentistree Dental Clinic on January 22, 2025, with complaints of severe pain in the upper right front tooth. The patient was diagnosed with a peri-apical abscess in relation to tooth #8.

An emergency root canal treatment was performed, including an access opening in tooth #8, to relieve the patient's intense pain. To allow proper recovery, the patient has been advised to rest and refrain from work or other strenuous activities for the day (January 22, 2025).

The patient is expected to follow up for further treatment as required. Should you need any additional information regarding the patient's treatment or care plan, please feel free to contact our clinic.

Sincerely,

*R. K. Desai*
